

HOW CAN MY ORGANIZATION CO-SPONSOR AN EVENT?

1

PROVIDE EXPERTISE

Is there something your organization can provide to make the event better? Every organization has a different mission and you can use yours to make the event even better!

2

HELP WITH PROMOTION

Use your organizations social media platforms to promote the event to your followers. Strongly encourage your organizations members to attend the event you are Co-Sponsoring.

3

OFFER RESOURCES

This can include financial resources or volunteer assistance. There might even be supplies and equipment your organization can offer to enhance the event.

4

SHARE THE WORKLOAD

Offer to help by taking on some of the planning tasks like developing the flyer, shopping for supplies, or confirming an opening speaker/performer. Another idea is to add an element to the event, for example providing a handout related to the topic or adding an activity to make the event more dynamic.
